

# EXHIBIT B

The following chart is an explanation of the codes used by BestMed in objecting to

Medisim's Trial Exhibits:

A – Authenticity; the exhibit has not been properly authenticated for admission into evidence. Fed. R. Evid. 104, 901.

I – Inadmissible; contains inadmissible matter

R – Relevancy; the exhibit is irrelevant; it does not tend to make the existence of any fact that is of consequence to the determination of this action more probable or less probable than it would be without the evidence. Fed. R. Evid. 401.

H – Hearsay; the exhibit or testimony consists of an out-of court statement offered into evidence to prove the truth of the matter asserted. Fed. R. Evid. 802.

NP – No personal knowledge; the witness lacks personal knowledge and is not competent to testify regarding the subject matter. Fed. R. Evid. 602.

BE – The information in the exhibit is less reliable and less pertinent than other evidence, and should be excluded pursuant to the best evidence rule. Fed. R. Evid. 403, 1001, 1002, 1003, 1004, 1007.

UP – probative value is substantially outweighed by the danger of unfair prejudice, confusion of the issues, or misleading the jury, or by considerations of undue delay, waste of time, or needless presentation of cumulative evidence. Fed. R. Evid. 403.

D – Not produced during fact discovery.

OX – Outside scope of expert report.

LI – Document identified as a trial exhibit after the deadline established by the parties

DEMO – BestMed objects to the admission into evidence of any demonstrative exhibits. Moreover, it appears these documents have either not been created yet or have not been produced. BestMed would need to actually see the document before it can reasonably object. Until that time, BestMed reserves all objections to the documents.

DUP – Duplicative of documents on BestMed's Trial Exhibit List.

ARG – Argumentative; the question, answer, or both contain improper arguments so as to be objectionable under the Federal Rules of Evidence.

F – Foundation; the exhibit or testimony lacks supporting foundation. Fed. R. Evid. 401, 402, 403.

V – Vague; the question contains vague, ambiguous, or undefined terms.

U – Unintelligible; all or part of the exhibit or question is illegible, unintelligible, or unreadable. Fed. R. Evid. 401, 1003.
